

# The Planting Festival 2020

## What type of stall are you?

### Food Stalls

Are licensed to sell drinks and/or a combination of food/desserts, anything that is consumed by the mouth and considered 'food' or a 'beverage'.

### Category 4 Food Stalls

Are stalls that only sell one product and are consumed by the mouth and considered as 'food/treats'.

### Craft Stalls

Are those stalls selling only Australian handmade products that are not mass-produced by other people outside of Australia and are made by the application. We support artistic folk who make, create, produce wares and goods with skills and then create a space to display their wares that bring. The jeweler who makes adornments, the wood turner who creates useable objects (or not), the potter, who creates, bowls to eat from, vases to decorate with and the candle maker who brings us light.

### Merchandise Stalls

Are those stalls that import their products or sell products that they do not produce themselves. We support retailers who support others and consider ethical practice, with an emphasis on human rights and providing additional economy to countries less fortunate than ours. Please note, these products must not be mass produced items, plastic toys, weapons, single use products or other products deemed by our team as 'not appropriate'

If your Stall is a combination of craft and merchandise, it is a Merchandise Stall and we ask you to apply under that category. Merchandise stall fees will apply.

### Community Group and Information Stalls

Are Non-Profit Incorporated Organisation's that represent the community's needs or/and provide services for the benefits of others or the environment and wish to promote these services to the community of Woodfordia.

### Health and Wellbeing Stalls

Are stalls that provide health, wellbeing and therapeutic services and goods and are registered and qualified in their field.
